PUBLIC MEETING & WORKSHOPS

Resource Adequacy Workshop (R01-10-024) (UPDATED as of 5/19/04)

May 17, 2004
10 am – 5 pm

May 18, 2004
9 am – 4 pm

May 26, 2004
10 am

California Public Utilities Commission
505 Van Ness Avenue, Hearing Room
(Corner of Van Ness Avenue and Golden Gate)
San Francisco

These workshops will address the following resource adequacy issues:

1. Phase-in
 - (a) of 115% PRM (by 1/1/08)
 - (1) starting point
 - (2) interim benchmarks
 - (b) of 90% year ahead forward contracting obligation (implement for 2007 per FOF 19)
 2. DWR contracts
 - (a) implementation of FOF 22 ("full credit and value") per 2/13 ruling on workshop scope
 - (b) allocation to LSE's for purposes of 90% requirement
 3. Tagging
 - (a) capacity market generally within context of RA showing
 - (b) SVMG straw proposal
 4. Load Forecasting
 - (a) Procedures for determining which energy efficiency, demand response, and distributed generation programs should be assumed to be "committed" and how impacts are included within load forecast/ definition of "committed" resources
 - (b) In light of procedures discussed in (a), discuss demand response programs as load reduction or supply resource (at an earlier workshop the ISO suggested that we decide after we know the "hours" and stated that if it (presumably the hours) matches, then ISO is okay with it reducing demand, if it doesn't match then ISO would treat it as supply for that # of hours). Now that we have the number of hours for energy limited resources per ISO circulation on 5/13, should this issue be discussed again?
 5. TENTATIVE - Local deliverability
[This topic will be included on 5/26 if the ISO is able to circulate the historical data by 5/20 to the parties. ISO, please contact me to discuss this.]
 - (a) review of historical data from must offer calls - specifically looking at why units are called (limited only to those described as "chronic" at 5/5 workshop)
 - (b) further discussion of deliverability requirements for resource adequacy purposes for resources serving load pockets based on review of historical data above
- Contact: Michelle Cooke, Administrative Law Judge, at (415) 703-2637 or mlc@cpuc.ca.gov.

The Water Division is hosting a continuation Workshop August 25 and 26, 2004; September 14, 29, and 30, 2004; and October 20 and 21, 2004, to solicit public input on the need for modification of the Rate Case Plan for Class A Water Utility General Rate Applications (Commission Decision 90-08-045).

The purpose of the workshop is two fold:

To identify the least controversial issues in the Draft Proposed Rate Case Plan for Class A Water Utility General Rate Applications prepared by the Water Division and;

To discuss the necessary components of an interim rate case plan schedule for year 2004.

For your information, the Draft Proposed Rate Case Plan for Class A Water Utility General Rate Applications can be found on the Commission website at <http://www.cpuc.ca.gov>. (Go to the “Regulated Areas,” select “Water” and scroll down to “Helpful Links”.)

NOTICE OF DRAFT RESOLUTIONS
(Pursuant to PU Code § 311(g))

This alternate to draft resolution T16818 differs from the proposed resolution in one significant way: It affirms and maintains the Telecommunications Division's policy as adopted in previous resolutions to use the "non-recurring burden test" to permit the discounting or waiver of non-recurring charges when the service provided covers costs. As a consequence, this resolution does not trigger immediate \$56 million in price increases for SBC's telecommunications services which were approved previously through use of the "burden test" is available at the Commission's web site:

5/13/04 A98-11-012 Lodi Gas Storage, L.L.C., for a certificate of public convenience and necessity for construction and operation of gas storage facilities.

Summary: On May 11, 2004, James Boothe representing Lodi Gas Storage, L.L.C. (LGS) met with Cmmr. Peevey in San Francisco. Also present were Julie Fitch, advisor to Cmmr. Peevey, and Daniel Fessler and Peter Esposito representing LGS. Copies of LGS's comments filed with the Commission were used. Fessler discussed concerns LGS has with the draft decision on LGS's petition for modification of its Certificate of Public Convenience and Necessity to eliminate the surety bond requirement. Fessler discussed the changed operating and financial circumstances as a sufficient reason for eliminating the surety bond requirement. Fessler also discussed the undue discriminatory nature the continued imposition of the surety bond imposes on LGS. Fessler and Esposito discussed the design and engineering actions undertaken by LGS at a significant cost in order to address community concerns with soil subsidence with the pipeline facilities. Boothe discussed the unfavorable cost implications of including an unknown future inflation adjustment on the surety bond based on information provided from LGS's bonding company. Boothe requested that the Commission reconsider the decision to impose an inflation factor if a surety bond is required to be maintained.

5/14/04 R03-10-003 Order Instituting Rulemaking to Implement Portions of AB117 concerning Community Choice Aggregation.

Summary: On May 11, 2004, Eric Eisenman, Chief, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Julie Fitch, advisor to Cmmr. Peevey, in San Francisco. Also present were Cheryl Cox, advisor to Cmmr. Lynch, Amy Chan of the Energy Division, and David Rubin, Director, Service Analysis, Sandra Burns, Manager, Gas & Electric Supply, Del Evans, Manager, Account Services, and Paul Holton, Manager, Revenue Requirements, for PG&E. Written material (attached to the notice) was used. Rubin stated that PG&E is committed to working with potential CCAs and the Commission to fairly implement CCA service. Burns explained that a customer responsibility surcharge (CRS) needs to be developed so that remaining bundled customers are indifferent to CCA service. Burns stated that the CRS should reflect all above-market procurement-related costs. Burns stated that PG&E recommends that CCAs should have a five-year resource adequacy requirement and that a single CRS rate be applicable for all CCA participants and all usage up to 130% of baseline. Evans outlined PG&E's recommendations on implementation cost recovery and transaction cost recovery.

Summary: On May 12, 2004, Erik Jacobson, Chief, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Manuel Ramirez, advisor to Cmmr. Wood, in San Francisco. Also present was Lise Jordan, Attorney for PG&E. Written materials (attached to the notice) were used. Jordan stated that PG&E supports the California Coalition of Utility Employees/PG&E agreement (Agreement) that is based on a careful balancing of the reliability targets, dead bands, live bands, reward/penalty limits and the incremental revenue requirement. Jordan explained the difference between the 'adequate service' standard and the more stringent reliability targets in the Agreement. Jacobson stated that anticipated reliability improvements would be small compared to the annual fluctuations in SAIDI and SAIFI indices. Jacobson urged the Commission to adopt the Agreement as a whole.

Summary: On May 12, 2004, Curt Hildebrand, Vice President of Marketing and Sales of Calpine Corporation, sent a letter (copy attached to the notice) by hand delivery to Cmmrs. Brown and Wood. The letter responds to questions raised during an all-party meeting with Cmmrs. Brown and Wood on May 3, 2004. In the letter, Hildebrand stated that the timely completion of Otay Mesa is largely within the Commission's control. Hildebrand explained why the costs related to the Transmission System Enhancements should not be solely attributed to Otay Mesa and that the Transmission System Enhancements are not necessary for Otay Mesa to satisfy San Diego Gas & Electric Company's local reliability needs.
